DEAR SKIERS AND RIDERS,

Keeping up with the world of skiing and snowboarding these days is a challenge for beginning and experienced skiers alike. Regardless of your skiing abilities, ski enthusiasts always want to know, *What's the best way to learn or improve your skiing or riding skills?*

Instructional Clinics, Inc., is an organization of skiers with the goal of fostering skiing or riding as a healthful, outdoor, winter recreation activity. Our learn-to-ski program combines safety, fun and learning to create a wonderful opportunity for all skiers to increase their knowledge and improve their techniques. The better you get, the more fun you have!

When considering our ski and snowboard programs, look for a program that best suits your ability, goals, time, and preferred discipline. Eight hours of instruction taught by Professional Ski Instructors of America certified instructors are provided for our weekend learn-to-ski and snowboard clinics. All levels of skiers are welcome to attend the program for recreational, racing, cross-country skiing and snowboarding. Our program is unique because we offer different weekend clinics so skiers can continue learning and improving throughout the ski season.

We are extremely proud of consistently being recognized for our program by skiers from Michigan, Indiana, Ohio, the Chicago area and Ontario, Canada. We have established a reputation for service, quality, and value with ski groups, clubs, families and individuals.

We accept the challenging job of teaching you how to ski and snowboard and to become active participants in an enjoyable, lifetime sport.

See you on the slopes!

Joe Portera
President, Instructional Clinics
